Relevant results: La colonia de Ilici (Elche, Alicante) es uno de los centros urbanos de época romana más destacados del sureste peninsular. Está dotada de dos complejos termales, donde el conocido como Termas Orientales destaca particularmente por su monumentalidad, por la complejidad de sus instalaciones y por el prolongado uso de su edificio a lo largo del tiempo. Descubierto fortuitamente en 1963, no fue excavado de manera sistemática hasta finales del siglo pasado. El proyecto ASTERO retomó su excavación arqueológica en 2017, revelando en sus dos primeras campañas sugerentes novedades acerca de la vida y evolución de este edificio.
